ers of the world.

Among freemen
there should be no
masters but justice
and duty and love of
right and fellowman.

PALESTINE, TEXAS, NOVEMBER 10, 1906.

WE NEED PEOPLE.

The very greatest need that confronts Palestine and Anderson county today is the need of new people on the farm lands. No county is richer in natural possessions of soil, water, timber, climate and all of the conditions that contribute to making a good farming country. But natural advantages are not enough by themselves to attract people to a section. People are not mind readers, and cannot hear of these conditions unless they are told about them.

The Herald has seen many schemes tried for advertising a section of country. Some of the schemes are good and some are ineffective. It is admitted by all people who have given the subject of advertising any thought that the most effective method of catching and holding attention is through the follow-up system. And there are many methods of doing this advertising. The best method the Herald has ever seen tried is through subscriptions to a good county paper like the Herald. If every man in Anderson county who is interested in seeing new people brought in would subscribe for a copy of the paper to be sent to some friend or acquaintance in another state and keep it going for even three months good results would follow in many cases. In many cities Boards of Trade have used the county paper and have gotten good results. The paper tells the actual story of local conditions from week to week. It includes every phase of the subject and gives a variety of data not possible in a folder or any other class of advertising matter. Try the paper as an immigration getter.

The brand of your religion is of not so much importance as to be sure you have religion.

North Texas can boast of her rabbit ranches, but we defy it to meet us on the sassafras tea proposition. We have a monopoly.

Wouldn't it be a far if the president, while sailing around the Panama country, should come upon a native or so who had never heard of his greatness?

A Republican senator swings his good right arm and shouts that no man should be allowed to have more than \$100,000,000. Why? Why not just give him the rest?

Those negro soldiers who were recently kicked out of the army now have an opportunity to go back North among their true friends and live happy lives unnoticed and unregretted.

The Marshall Messenger has learned that Judge N. A. Stedman has been elected a director of the I. & G. N. railroad. He has been a director for a good number of years, and was recently re-elected.

Say, honestly, can't you see poor old Anderson county limping up to the next Democratic state convention, and meekly saying, "We bid three measly votes on the motion, Mr. Chairman." It's a national disgrace.

Serious trouble is likely to result from the hot-headedness of that gang down on the border. It is characteristic of this class of Mexican to be as humble as a whipped dog on his side of the river, but when on this side to get mean and contentious. This

greaser element dares not hold up its head in Mexico, but across the river gets very important. Uncle Sam should teach them that he also has laws as well as Diaz and can enforce them when it becomes necessary.

The next great undertaking of national importance and yet an individual question is the acquiring of the Thanksgiving turkey. The bird should be just the right size for the family range, and should be kept in waiting until he is of the right degree of fatness. But the main thing is to get the turkey.

One of Palestine's illustrious men, who is practical if anything, says he believes sassafras tea has contributed very largely to the making of several of East Texas' great men. Maybe so, but very few of the near-great politicians that we know reasonably well have very little to do with sassafras tea or any other drink half as soft.

Evangelist Davis says the churches need to get truly converted. He says the cold shoulder is responsible for a great deal of misery and a great deal of indifference. Yes, that is true. If all men whose names are on the church books lived a christian life it would not take long to impress others with the virtue of their professions.

President Roosevelt will spend some twenty-four hours in Panama posting himself on the great needs of the situation. Still, we have experts over there who, after a study of some several months, have not yet decided whether they want the Atlantic ocean to run into the Pacific or the Pacific into the Atlantic. The president is a smart man if he can find out where the canal is in twenty-four hours.

Every man should impress his individuality on his community. But not all of them do it. Some men are too modest to take their position in public life, others are too indifferent or too indolent and some others have no individuality to impress. Right here in Palestine a comparatively few men run the whole works while the great majority are content to drill from their homes to their shops and stores with their eyes always on the main chance. Be a part of your community.

The esteemed Houston Post points out what great things might have happened in New York if Hearst had been simply a good voter instead of a presumptuous candidate. In other words if the bolters had been allowed to nominate the ticket they would have voted the Democratic ticket. But as another kind of Democrat got the nomination they bolted the ticket as they always do, and voted a half Republican ticket by not voting for Hearst. The cry of support the nominees do not apply to these fellows.

Tomorrow will be a very important day in local religious circles. In addition to the usual morning services at the various churches, Evangelist Davis will conduct a special service at the Centenary church for ladies and children at 3 o'clock. At the same hour at the city hall Mr. A. G. Knebel of New York City will address the men of Palestine. Mr. Knebel is connected with the Y. M. C. A. work. Both of these services are important to the people of the city, and should be largely attended. There are many things that could be profitably said to the men of Palestine, and Mr. Knebel is said to know how to say the most helpful things.

Special Train.

A special train of some six cars arrived from San Antonio this morning at 8 o'clock. The train was literally crowded with excursionists coming home from the fair. The regular train from the west was late and was also heavily loaded with excursionists.

Administrator's Notice.

Notice is hereby given to all persons having claims against the estate of Zack S. Arnold, deceased, to present the same within the time allowed by law to N. B. Peake, Palestine, Tex., temporary administrator of said estate under order of appointment dated October 1, 1906.

Macaroons, Lady Fingers and Cakes of all kinds at Hoyle's Bakery.

TELEPHONE COMPANY'S NEW IMPROVEMENTS

WILL REPRESENT AN EXPENDITURE OF \$35,000.—PLANS FOR BUILDING RECEIVED.

Building plans for the new telephone exchange building have been received, and the work of building will proceed as soon as possible.

The building will be at the corner of Main and John streets, where is now located the Jones Dry Goods Company and the Burton Racket Store. This corner building, 50x100 feet, is to be remodeled and another story added. It will be finished in Lindale pressed brick. The telephone exchange will occupy the entire second floor. The above mentioned business houses will remain where they are. This building is the property of Mrs. Douglass.

The plans call for six big twin windows along the west wall, for the second floor, and the north half of the building will be provided with ventilators and skylights, making the light and ventilation proposition all it should be. The south front will contain four big twin windows, and on raised letters on the front will be: "190. Telephone Building." A stairway of broad dimensions will be placed in the center doorway of the Main street front, between the two store buildings on the first floor.

In the southwest corner of the second floor will be located the business office and the superintendent's private office. Immediately back of these offices will be the operating room, where will be located the switchboard, etc. Back of this will be a store room and lavatories for the women employees.

The Long Distance office will be located in the southeast room, facing Main street, and back of this will be the manager's private office. Then there is provided a rest room, which will be for the use of the lady operators, and strictly private; a dining room, kitchen, lavatory for men, etc.

So much for the building. Now the thing the general public is most interested in is the modern phone improvements. The Herald is assured every modern contrivance will be added, including flash-light phones, etc., and a switchboard capable of taking care of two thousand phones.

The improvements on building and exchange will represent an expenditure of at least \$35,000, and when completed Palestine will have one of the most modern telephone exchanges in the South.

RUSK WANTS CONNECTION

By Rail With Palestine By Extending the State Road to This City.

The people of Rusk are very much interested in having the state road extended from that city to Palestine, and a meeting of the citizens of that town was held Thursday to appoint a committee to confer with Palestine people in this matter. This is undoubtedly a good proposition, and there are many reasons why this road would be a valuable one to Palestine as well as to Rusk and the state institutions at Rusk. Our people will be glad to meet with the Rusk people and go into this matter and see what can be done. The Rusk Press-Journal says of the meeting:

The citizens of Rusk are holding a meeting in the court house today for the purpose of organizing and appointing a committee to confer with the Palestine citizens as to the best mode of procedure towards securing the extension of the state railroad. We will give full particulars in next week's issue.

Chairman Carden Talks.

On the subject of the election, Hon. George A. Carden of Dallas, chairman of the Democratic State Executive Committee, has issued the following statement: "The result of the election shows that the people regard the primary as the real election and the general election as a mere legal form through which to register their predetermined choice. The returns indicate the normal state Democratic majority to be about 300,000 and that the legislature will probably be unanimously Democratic. This situation is unparalleled in any state, and while the vote was light we ought to be satisfied. In other states there is much in the returns to furnish evidence to Democrats, heavy as are some of the disappointments. Missouri is reclaimed, Oklahoma and Indian Territory will commence their statehood near the head of the Democratic column."

Fine Sugar Cane.

Our friend C. M. Holland presented us with a stalk of sugar cane this morning that would have been a prize winner in any fair. It measures eight feet and two inches in length, and is rich sweet ribbon cane in every joint. This county produces as fine ribbon cane as any county in Texas, and our people make as fine syrup as any people on earth.

HODGES GROCERY CO.

A Special Invitation

Is extended to our Lady Customers and to all lovers of Good Coffee and Teas to a Free Demonstration of Chase & Sanborn's Celebrated "Seal" Brand and other blends of good Coffee to be given in the Dry Goods Department next Monday and Tuesday, November 12th and 13th. The Publisher's Claims Sustained

UNITED STATES COURT OF CLAIMS
The Publishers of Webster's International Dictionary allege that it is, in fact, the popular Unabridged thoroughly re-edited in every detail, and vastly enriched in every part, with the purpose of adapting it to meet the larger and severer requirements of another generation.
We are of the opinion that this allegation most clearly and accurately describes the work that has been accomplished and the result that has been reached. The Dictionary, as it now stands, has been thoroughly re-edited in every detail, has been corrected in every part, and is admirably adapted to meet the larger and severer requirements of a generation which demands more of popular philological knowledge than any generation that the world has ever contained.
It is perhaps needless to add that we refer to the dictionary in our judicial work as of the highest authority in accuracy of definition; and that in the future as in the past it will be the source of constant reference.

CHARLES C. ROTT, Chief Justice.
LAWRENCE WELDON,
JOHN DAVIS,
STANTON J. FICKLE,
CHARLES K. BOWEN,
Judges.
